Our Company

Twice the Results at Half the Effort

Techspecialist Consulting Limited
Corporate
HQ
FCT - Abuja

Techspecialist Consulting Limited was founded in 2008 on the premise of doing more with less. Our mandate lies in leveraging technology to competitive advantage by helping your business get better results at a fraction of the required effort.

As an indigenous business, we recognize that the key to global competitiveness lies in innovative systems that promote faster, more convenient, and more efficient ways of doing business. Therefore, we are committed to driving efficiency by transforming your operations into a system of automated background processes, while you focus on the business of commercializing value.

We view technology as a key contributor to business growth that will not only improve operational efficiency but also enable innovative new business strategies, thus empowering your organization to meet and exceed customer demand.

We work in collaboration with our clients to optimize, automate, integrate, and reengineer core organizational processes leading to streamlined operations, reduced costs, and increased productivity across the entire enterprise effort.

Consequently, the minimal resources consumed in processing business activities, makes room for better products and faster services delivered to more clients and customers, allowing for higher returns on investment and a healthier organizational bottom line.

Techspecialist Consulting Limited

Doing more
with Less...

TechSpecialist Values

Our core values, "Value Creation", "Innovation", "Professionalism" , "Growth" and "Integrity" are the guiding principles in our relationships with all key stakeholders (clients, communities, agencies, our people, and external business partners).

We embrace high professional and ethical standards that guide our commitment to creating value for our clients in support of their quest for excellence. We do this by combining a needs-driven consultative approach with our flair for innovation and industry expertise to create best-in-class solutions that address short term tactical needs and contribute to meeting long term strategic objectives.

Our enterprise transformation and technology consulting practices are targeted at boosting productivity and profitability by optimizing business functions through an integrated technology backbone; automating operations using best-fit solutions, and providing the agility required to adapt and position your organization favorably within a competitive business landscape.

Vision

To become Nigeria's leading company providing IT management support, Systems, products and services to clients

Our **Amazing Team**

At Techspecialist, we have a formidable team of experts that are experienced, innovative, committed and passionate in using technologies to transform all facets of human endeavor.

Our Team is our **Lifeblood**, Our bond is the key to our success.

At Techspecialist, we have a formidable team of experts that are experienced, innovative, committed and passionate about using technology to transform all facets of human endeavor. Our Management and Advisory Board consists of accredited and experienced IT Professionals, Software Programmers, Project Managers and Business Development Consultants with more than ten years of hands-on experience in ICT solutions delivery. Our team prioritizes project delivery using tested and trusted methodologies to ensure that we consistently meet and exceed our clients' expectations from both quality, innovation and reliability perspectives.

Salami Kadir is the founder of Techspecialist Consulting Limited. He is a disruptive technology visionary with over a decade of experience in Business and IT Consultancy, enterprise-wide technology implementation and Project Management.

He is also a key Senior Infrastructure Consultant for AdamSmith International, and currently acts as the local CGNet Infrastructure Delivery and Support partner for the West African region, managing top-tier operations like the Bill and Melinda Gates Foundation, MacArthur foundation, Nigerian Sovereign Investment Agency, Nigeria Mortgage Refinance Company and many others.

Salami Kadir
MD/CEO

Besides a master's degree in Information Technology, Salami has amassed numerous certifications from Microsoft, Cisco and RedHat depicting a wealth of experience in core technology service areas such as IT infrastructure management, cloud computing and information security, which influence the organisation's overall strategic direction. Being passionate about changing the digital literacy and technology capacity narrative in Nigeria, Salami went on to establish Techspecialist Academy – an innovative training solutions provider targeted at improving the quality, enterprise readiness and market competitiveness of IT enthusiasts. Using this platform, Salami has groomed a vibrant team of driven young professionals with a consuming passion for technology.
